FORWARD-LOOKING STATEMENTS

Today's discussion may include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements relate to future events and expectations and involve known and unknown risks and uncertainties. Verifone's actual results or actions may differ materially from those projected in the forward-looking statements. For a summary of the specific risk factors that could cause results to differ materially from those expressed in the forward-looking statements, please refer to Verifone's filings with the Securities and Exchange Commission, including its annual report on Form 10-K and quarterly reports on Form 10-Q. Verifone is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.

NON-GAAP FINANCIAL MEASURES

With respect to any Non-GAAP financial measures presented in the information, reconciliations of Non-GAAP to GAAP financial measures may be found in Verifone's quarterly earnings release as filed with the Securities and Exchange Commission as well as the Appendix to these slides. Management uses Non-GAAP financial measures only in addition to and in conjunction with results presented in accordance with GAAP. Management believes that these Non-GAAP financial measures help it to evaluate Verifone's performance and to compare Verifone's current results with those for prior periods as well as with the results of peer companies. These Non-GAAP financial measures contain limitations and should be considered as a supplement to, and not as a substitute for, or superior to, disclosures made in accordance with GAAP.

EXPLANATORY NOTES TO RECONCILIATIONS OF GAAP TO NON-GAAP ITEMS

Note A: Non-GAAP net revenues. Non-GAAP net revenues exclude the fair value decrease (step-down) in deferred revenue at acquisition.

Note B: Non-GAAP net revenues at constant currency. Verifone determines non-GAAP net revenues at constant currency by recomputing non-GAAP net revenues denominated in currencies other than U.S. Dollars in the current fiscal period using average exchange rates for that particular currency during the corresponding financial period of the prior year. Verifone uses this non-GAAP measure to evaluate performance on a comparable basis excluding the impact of foreign currency fluctuations.

Note C: Merger and Acquisition Related. Verifone adjusts certain revenues and expenses for items that are the result of merger and acquisitions. Acquisition related adjustments include the amortization of intangible assets, fixed asset fair value adjustments, contingent consideration adjustments, incremental costs associated with acquisitions, acquisition integration expenses and changes in estimate on contingencies that existed at the time of acquisition.

Note D: Stock-Based Compensation. Our non-GAAP financial measures eliminate the effect of expense for stock-based compensation.

Note E: Other Charges and Income. Verifone excludes certain revenue, expenses and other income (expense) that are the result of unique or unplanned events, such as litigation settlement and loss contingency expense, certain costs incurred in connection with senior executive management changes, certain personnel and outside professional service fees incurred on initiatives to transform, streamline and centralize our global operations, and restructure and impairment charges related to certain exit activities initiated as part of our global transformation initiatives. In addition, income taxes are adjusted for the tax effect of the adjusting items related to our non-GAAP financial measures and to reflect our estimate of cash taxes on a non-GAAP basis. Under GAAP our Income tax provision (benefit) as a percentage of Income (loss) before income taxes was 7.6% for the fiscal quarter ended April 30, 2015, 9.0% for the fiscal quarter ended January 31, 2015, 2.7% for the fiscal quarter ended April 30, 2014, 8.2% for the six months ended April 30, 2015 and 15.9% for the six months ended April 30, 2014. For non-GAAP purposes, we used a 14.5% rate for the fiscal quarters ended April 30, 2015, January 31, 2015 and April 30, 2014 and the six months ended April 30, 2015 and 2014.

Note F: Non-GAAP diluted shares. Diluted non-GAAP weighted average shares include additional shares that are dilutive for non-GAAP computations of earnings per share in periods when we have a non-GAAP net income and a GAAP basis net loss.

Note G: Free Cash Flow. Verifone determines free cash flow as net cash provided by operating activities less capital expenditures.
